

FORMING PAWS

Request for Proposals

Veterinary verification partner network — Chicago

August 28, 2026

theplugai.xyz · github.com/morrisstephon51/forming-paws

1. Introduction

Forming Paws invites proposals from licensed veterinary clinics and practices in the Chicago area to join its founding Veterinary Verification Partner Network. Partners provide the wellness examinations and health documentation that anchor the platform's health first matching model, and receive referral visibility to a growing community of documented, responsible dog owners.

Issued: August 28, 2026. Proposals are reviewed on a rolling basis.

2. Background

Forming Paws is a live nonprofit platform at theplugai.xyz for documented, responsible dog breeding. Every dog on the platform must have a veterinary wellness exam within the last 12 months and core vaccinations before matching features unlock. That requirement makes veterinary partners the foundation of the platform's integrity.

3. Scope of Partnership

3.1 The partner provides

- Standard wellness examinations and vaccination services for platform members at the practice's normal rates. No discounting is required.
- Health documentation in a form owners can upload: exam summaries, vaccination records, and where offered, OFA and DNA panel results for Gold badge verification.
- A practice contact for verification questions on documents the practice issued.

3.2 Forming Paws provides

- Listing in the platform's recommended veterinary partner directory shown to Chicago area members.
- Referral flow: members without a recent wellness exam are prompted to book one and shown nearby partners.
- Co branded education content opportunities on responsible breeding health standards.
- No fees in either direction at this phase. Future sponsored placements, if introduced, will be optional and separately agreed.

4. Anticipated Timeline

Milestone	Target
Proposals reviewed	Rolling, beginning September 2026
Founding partner cohort selected	Q4 2026
Partner directory live to members	Q4 2026
First co branded education content	Q1 2027

5. Proposal Requirements

A brief letter of one to three pages is sufficient and should include:

- Practice name, location or locations, and licensure details.
- Services offered relevant to the program: wellness exams, vaccinations, OFA radiographs, DNA panels.
- Typical appointment availability for new clients.
- Any experience with breeder clients or reproductive health services.
- Primary contact for the partnership.

6. Evaluation Criteria

Criterion	Weight
Geographic coverage of member population	30%
Relevant services, including Gold badge diagnostics	30%
Appointment access for new clients	20%
Alignment with health first, anti mill mission	20%

7. Submission

Submit proposals or questions through the contact form at theplugai.xyz/contact. Forming Paws may follow up with a call or visit before selection. This RFP does not commit Forming Paws to enter any agreement, and all partnership terms are subject to a mutually executed written agreement.
