

THE PLUG AI

Request for Proposals

Community host and fiscal sponsorship partnership

August 28, 2026

founder@theplugai.info · theplugai.info

1. Introduction

The Plug AI invites proposals from 501(c)(3) organizations in south suburban Cook County, including churches, community centers, and community based organizations, to serve as host and fiscal sponsorship partner for a community AI literacy workshop program.

Issued: August 28, 2026. Proposals are reviewed on a rolling basis.

2. Background

The Plug AI closes the AI literacy gap for faith communities, community health workers, and first generation students. The program is designed, the platform is live at theplugai.info, and funding applications are prepared, including the Illinois Eliminate the Digital Divide program with grants of up to \$75,000. What the program needs is a community anchor: an established 501(c)(3) partner with space, trust, and members who want these skills.

3. Scope of Partnership

3.1 The partner provides

- 501(c)(3) fiscal sponsorship: receive and administer grant funds on behalf of the program under a written fiscal sponsorship agreement with an agreed administrative fee.
- Host facilities: a room suitable for 15 to 30 participants with tables, power, and Wi Fi, available for a recurring workshop series.
- Community mobilization: promote the program to members and the surrounding community.
- A designated point of contact for scheduling and reporting.

3.2 The Plug AI provides

- Complete curriculum and live facilitation for every session.
- All program materials, registration systems, and participant follow up.
- Grant writing and reporting workload for jointly pursued funding.
- Co branding: the partner is named in program materials, the website, and funder communications.
- No cost to the partner beyond facilities and coordination time.

4. Anticipated Timeline

Milestone	Target
Proposals reviewed	Rolling, beginning September 2026
Partner selected and agreement signed	October 2026
Grant application submitted jointly	Q4 2026
Pilot workshop series begins	Q4 2026 to Q1 2027

5. Proposal Requirements

Proposals may be brief. A letter of two to four pages is sufficient and should include:

- Organization name, address, mission, and confirmation of 501(c)(3) status (determination letter on request).
- Description of facilities available for workshops.
- Estimate of community reach: congregation or membership size and communication channels.
- Prior experience, if any, administering grants or fiscal sponsorships.
- Proposed administrative fee for fiscal sponsorship, if applicable.
- Primary contact for the partnership.

6. Evaluation Criteria

Criterion	Weight
Community reach and trust within the target audiences	30%
Facility suitability and availability	25%
Fiscal sponsorship capacity and terms	25%
Mission alignment and commitment	20%

7. Submission

Submit proposals or questions to founder@theplugai.info with the subject line "Partnership Proposal". The Plug AI may request a site visit and a conversation with organizational leadership before selection. This RFP does not commit The Plug AI to enter any agreement, and all partnership terms are subject to a mutually executed written agreement.
