

VENTURE REVIEW · AUGUST 28, 2026

Two missions. One builder.

The Plug AI · AI literacy for the people the tech world forgot

Forming Paws · A health-first community for responsible dog breeding

Stefan Morris · Chicago, IL

The portfolio at a glance

The Plug AI

Nonprofit AI literacy for faith communities, community health workers, and first gen students in south suburban Cook County.

Live: theplugai.info **Stage:** funding pipeline

Forming Paws

Nonprofit platform for documented, responsible dog breeding. Health verification gates every match. Launched in Chicago.

Live: theplugai.xyz **Stage:** first members

The Plug AI

Get Connected. Get Skilled. Get into AI.

There is a gap.

AI is changing work, school, and access to services. The change is not reaching everyone.

Faith communities

Trusted community hubs with no technology programming, and members watching AI reshape their jobs.

Community health workers

Asked to use digital tools daily with no training designed for their field work.

First gen students

No informal networks where AI skills currently spread. Skills gap becomes a career gap.

Programs and traction

Faith community workshops

Hands on AI literacy hosted in partner churches

Health worker training

Applied AI for documentation, outreach, and translation

Student pathways

From AI consumer to AI operator, with career on ramps

Digital platform

theplugai.info with verified content and email capture

\$75K

Illinois Eliminate the Digital Divide
— live grant option

LOI IN

Kresge Foundation letter of inquiry
submitted

#1

Faith community content is the top
performing channel

The ask: one community partner

The primary grant requires a 501(c)(3) community partner. Everything else is ready.

1

Partner signs on

Church or community org provides fiscal sponsorship and a workshop room. RFP issued today.

2

Grant goes in

Joint Illinois Eliminate the Digital Divide application, up to \$75K. Kresge and Woods Fund run in parallel.

3

Pilot delivers

Workshop series runs Q4 2026 to Q1 2027. Real outcomes and testimonials feed the next round.

Partnership RFP and full business plan are in today's meeting packet.

Forming Paws

Every dog deserves a healthy start.

The problem, and what is live today

Breeding connections happen in unmoderated classifieds. No health verification, no accountability. The dogs bear the cost.

The platform — live at theplugai.xyz

- Owner accounts and dog profiles
- Health document upload and admin review
- Geolocated browse of verified dogs
- Mutual matching, both owners opt in
- Chat unlocked only after a match
- Admin console: reviews, reports, inbox

AUG 4

First real member
joined, 2026

\$0

Capital raised or spent
to build it

Trust is the product

Health gate

Vet wellness exam within 12 months plus core vaccinations before matching unlocks

Gold badge

OFA hips and elbows plus DNA panel. A premium recognition, never a gate

Safe contact

Chat only after mutual match, public meeting prompts, community reporting

Layered verification

Plausibility checks at intake; anything questionable routes to human review

Anti mill limits

One litter per dog per 12 months, breeding age gates, education acknowledgment

Structure and revenue path

501(c)(3) path, no for profit arm. Fiscal sponsorship accepts donations before IRS approval.

\$29

per dog verified badge

First revenue stream, decision locked.
Launches as verification volume
grows.

Now

Verified badge fee begins with member growth

Next

Donations open through a fiscal sponsor

Then

Listing boosts and membership tiers

Later

Vet referral partnerships and sponsored education
— vet partner RFP issued today

Next 90 days

The Plug AI

- Select community partner from RFP responses
- Sign fiscal sponsorship agreement
- Submit Illinois Digital Divide application
- Lock pilot workshop venue and date

Forming Paws

- Chicago vet and breed group outreach
- Select founding vet partners from RFP
- Finish remaining build slices
- Launch \$29 verified badge

The plug is in.
