

Madison Grind Brand Kit

Stefan Mundow · Class 2: Talking to AI Like an Architect

1. Final Brand Brief

1. **Brand personality:** Warm, quick, witty, unfussy.
2. **Colors:** Primary: Loop Navy, #1F2A44. Secondary: Sunrise Orange, #F26B3A. Accent: Morning Cream, #FFF4E6.
3. **Typography:** Bold, rounded capital letters that feel friendly and are easy to read from across the counter.
4. **Logo concept:** The words MADISON GRIND stacked in bold navy capitals, with one small orange half sun sitting above the name. The sun is a nod to opening at six thirty in the morning, and the name stays the star.
5. **Taglines:** Coffee first. Then class. / Up before your 8 AM. / Fair price. Fast cup.

2. First Logo and Final Logo

First logo

Final logo

I cut the rays and the skyline and moved the sun above the name, because the first version had three elements instead of two and the navy letters got lost on the orange when I shrank it to one inch.

3. Dark Version and Icon

Dark version

Icon

The dark version is the same logo, only recolored, with the letters switched to Morning Cream so they stay readable on navy. For the icon I used MG instead of the half sun, because the sun alone could belong to any brand and MG still reads at half an inch.

4. Final Mockup

My first mockup had beige squares on the phone that were not in my palette and a sign that was bigger than the cup, so I refined it to brand colors only and a smaller sign.
