House of Dreams Performing Arts

Website, Domain & Email Plan

Prepared by: [Your name] · October 2026 · Preview: [your Netlify link]

THE PROBLEM

Parents can't see our schedule, prices, or curriculum in one place, and they can't enroll without calling or coming in. We also don't have a business domain or professional email, so we look smaller than we are and our messages are easier to miss.

WHAT I'M PROPOSING

- **A rebuilt website on our existing WordPress,** with programs, curriculum, a weekly calendar, pricing, family stories, and an online enrollment form.
- **Our own domain: houseofdreamsarts.com,** registered in the business's name.
- **Professional email** for the three of us, plus hello@ and enroll@ addresses that parents can use.
- **Me as the person who keeps it running:** updates, backups, security, and keeping schedules and prices current.

TIMELINE (ABOUT 4 WEEKS)

Week	What gets done
1	Get admin access to WordPress and hosting. Register the domain. Set up email for all three of us.
2	Build the pages: programs, curriculum, calendar, pricing, FAQ. Load real prices, schedule, and photos.
3	Set up the enrollment form so it emails enroll@ and saves each entry. Test on phones and computers.
4	Final review with you, then launch. Point the domain at the site and announce it to current families.

ESTIMATED COSTS

Item	Approx. cost	Notes
Domain (houseofdreamsarts.com)	$10–20 / year	Auto-renew on, in the business's name
Email for 3 people (Google Workspace or Microsoft 365)	About $20–25 / month	hello@ and enroll@ are free add-ons, not extra users
Website hosting	$0 extra	We already pay for WordPress. I'll confirm the plan.
Plugins (forms, backups, security, email delivery)	$0–60 / year	Free versions cover what we need to start
Online payments (optional, later)	Card fees only, about 3% per payment	Only if we decide to take tuition online

Prices are estimates and get confirmed at checkout before anything is bought.

WHAT I NEED FROM YOU

- Admin login for the WordPress site and the hosting account, and permission to register the domain on the business card.
- Current prices, class schedule, season dates, and any photos we can use.
- A signed photo and media release from any family whose child appears on the site.

HOW WE'LL KNOW IT'S WORKING

- Number of enrollment forms submitted online each month.
- Fewer phone calls asking about prices and times.
- Every enrollment inquiry gets a reply within one business day.

THE ASK

Approve a 30-day trial. I build and launch the site, domain, and email. At day 30 we review the results together and decide whether I keep managing it. Ongoing upkeep should take about 1–2 hours a week.
